Today we see many kinds of robots around us. They are helpful.

When I went shopping, I saw a robot and it was working as a guide. I

could talk to the robot in English or other languages. At some restaurants, robots bring our meals. They can carry many plates at one time. Thanks to them, the restaurant doesn't need a lot of staff members. We have robot pets, too. We can have them even if we are busy with work or we live in small apartments. People will have fun if they live with robot pets. As I explained, robots can change many people's lives for the better. Do you agree with me? Why or why not?

- (注) plate: 皿 even if ~: たとえ~だとしても
apartment: アパート agree with: ~に賛成する
