- 7 次の英文は、中学3年生の春奈さんが、英語弁論大会に向けて、自分の経験について書いた原稿です。これを読んで、あとの問いに答えなさい。

I loved music. When I was five years old, I started piano lessons. ①, too. So I joined the basketball team in my school when I became a junior high school student. I got very busy with basketball practice. I didn't have enough time to practice the piano at home. My mother said, "If you don't have time to practice both basketball and piano, you don't have to go to the piano lessons."

A few weeks later, I went on a school trip to Fukuoka. On the last day, we saw a musical. It was my first time. It was great! There were many performers on the stage. All the performers sang and danced very well. They were also good at acting. I found that the musical performers had to practice a lot of things, for example, singing, dancing, and acting.

I had a chance to talk with a performer after the musical. I asked him, "How long do you practice every day?" "Mmm...now, it's about six hours every day. I practice singing for two hours, dancing for two hours, and acting for two hours. Do you like musicals?" "Yes, I love musicals! I love music and play the piano every day," I answered. He asked, "How long do you practice the piano every day?" ②I didn't say anything. Then he continued, "You may be busy now, but try to keep practicing for thirty minutes every day."

After listening to his words, I thought about my life. I usually watched videos on YouTube or played games before practicing the piano. I had enough time to practice the piano.

One day, I said to my mother, "I want to continue the piano lessons because I love both piano and basketball." My mother answered with a smile, "OK. Try it if you want. Good luck!"
