## For Everyone's Peace

Saturday, 9/21/2023

Do you know “Peace Day”? It's September 21. Yes, today! The United Nations made Peace Day in 1981.

I went to ABC park for Peace Festival. There were a lot of events. First, I joined the music one. Some famous singers came together. They showed some performances. (        ), I went to the picture one. It was very interesting. Then I joined another event, “Talk about Peace”. I really enjoyed talking with some students and older people. I learned many things.

When I think about peace, there are many ways. For example, you can join peace festivals like me, talk about peace with your families, and be kind to everyone. Writing messages is one of them. We have many things to do if we look around. Let's do something for everyone's peace.
