

First Year of SGH Research has begun~ Brainstorming and the KJ Technique~

The third consecutive year of Super Global High School (SGH) had a special event called “ToShiKou” and the 72nd graduating class of Nagasaki Higashi high school carried out group presentations using a brainstorming technique and a method called the KJ technique. This year, an introduction lecture was held by using “assignment research notes” for the new interim group of mixed students from Nagasaki Higashi Senior high school. The groups chose and discussed the three topics- realization of world peace, promotion of global health and improvement of the water environment.

Summarizing the techniques using the KJ Technique

Presentation: How to realize world peace?

*What is brainstorming?

It is an activity in which the members of a group suggest their ideas freely among each other in the group.

*What is the KJ Technique?

It is a method to classify many ideas into each group and a group process for establishing priorities by theoretical preparation.

10th grade students starts SGH research activity~ Nagasaki Time~

10th grade students of Nagasaki Higashi senior high school has an activity planning time one hour every week, called “Nagasaki Time”, and we will work on projects for SGH (Global Study 1 (GS 1)) in addition to during LHR. Students consider which ideas to work on during Nagasaki Time for a steady pace of Global Studies knowledge.

Discussion that we had about interesting points regarding global problems
